

#### ◀ RSL SPEEDSCREEN II

Genuine Oak or Hi-Tech Black **\$449 EACH**  
 The concert is over. You want to take the stirring sound of live performance and bottle it. Magically uncork it and make your wish come true in your own living room. If that's your dream, you may have to pinch yourself when you listen to RSL Speedscreen II's. Extensive research, design and testing—plus the finest parts—produced uncannily realistic performance. Then came the toughest test—the attack of the audiophiles. Going head-to-head with expensive and exotic speakers, the RSL Speedscreen II passed with flying colors. Its exclusive anti-diffraction filter and anti-resonance enclosure assure clarity, resolution and imaging for transparent sound. A ribbon tweeter produces lightning fast transient response, while the midrange reproduces each sound with razor sharpness.

And bass responds quickly, yet is powerful and tight. The RSL Speedscreen II has been measured against the best—by the experts. Come into our sound room, hear it embarrass \$2000 speakers, and give us the opinion we value most—yours. It also has a crossover wired with Monster Cable, fuse protection, gold plated binding posts, and a 5 year parts and labor limited warranty.

Enclosure Type	Passive Radiator
Woofers	8-inch Polypropylene
Passive Radiator	12-inch Diameter
Midrange	1.25-inch Dome
Tweeter	Ribbon
Frequency Response	32 Hz to 30 kHz
Maximum Power	200 Watts
Minimum Power	35 Watts
Crossover Frequencies	600 Hz & 9500 Hz
System Sensitivity	88 dB/1 watt/1 meter
Nominal Impedance	8 ohms
Dimensions HxWxD	48.5x19.5x12 Inches
Weight Each	60.5 Pounds

#### RSL ELAN ▶

Genuine Oak or Hi-Tech Black **\$469 EACH**  
 The RSL Elan is a logical extension of our popular Studio Monitor Series, with extended bass response, elegant cabinetry and spacial enhancement—and yet with the accuracy that professionals demand. Sound attains a vibrant realism with a spacious soundstage and a room-filling ambience that brings you right into the musical performance. The RSL Elan's extra rear-firing tweeter helps reproduce sonic information that adds space and depth to most recordings. Abundant bass comes from a combination of a front 12-inch woofer and a rear 12-inch passive

bass radiator. It features adjustable treble and midrange controls, Monster Cable wired crossover, gold-plated binding posts and a 5 year limited parts and labor warranty.
